**Fire**  
**Insurance on Fowler's Garage**  
**Will Be Adjusted Today and Amount of Payment Settled**

When Fowler's garage was burned the owner of the place began to investigate the matter of insurance and found that he was carrying policies aggregating \$22,500. This included all of the second-hand automobiles in stock at the time of the fire, numbering 49 all told, and J. S. Fowler at once made application to the insurance companies to settle. This they refused to do, claiming that all the automobiles were not worth the price asked for them by Mr. Fowler.

For some months the matter hung fire there and then it was determined that the question would have to be adjusted by a board of arbitration. Mr. Fowler selected T. B. Earle, of Anderson, the insurance companies selected Leo A. Folger, of Chicago, N. C., and these two selected T. E. Eskew, of Columbia, as the third member of the board.

Mr. Folger and Mr. Eskew arrived in the city last night and determined to adjust the matter, but they found that Mr. Earle was out of the city and accordingly they had to fill his place with a substitute. This was done and the three men will meet this morning, will go over the situation and will determine the amount of insurance to be paid.

**Fire Truck**  
**Report Says That the City is Considering Buying New Engine for the Department.**

While it may be 30 days, or possibly 40 days, before any action is taken, it is a positive fact that the city of Anderson will shortly place an order for a combination engine to add to the city's fire equipment. The new apparatus will consist of a fire engine pump and an arrangement for carrying additional hose and it is believed that the fire department's effectiveness will be increased by about 50 per cent when the new machine is purchased.

The public is aware of the fact that members of the fire committee of city council have been conducting an investigation for the last few weeks into the equipment possessed by other cities and several members of the committee have visited other cities and have seen the fire engine in action.

In discussing the matter, one member of council said yesterday that he was heartily in favor of buying the new machine, and while he could not foresee what action the fire committee might take he was convinced of the fact that the new engine would be in use in less than two months.

**Will Run Cars Two Weeks.**  
 Mexico City, Oct. 12.—The striking street car employees here today agreed to run the cars for fifteen days on the old scale of wages. The government has promised that, at the end of this time, it will arrange a satisfactory settlement of the strike. The government now is in actual control of all the street car lines.

## LARGE NEW YORK BANKS EXPRESS A WILLINGNESS TO ASSIST PLANTERS

Conference Held in New York Between Leading Banking Interests and Representatives of Southern Cotton Planters Regarding Formation of Large Pool to Finance Cotton Crop.

(By Associated Press.)

New York, Oct. 14.—Informal conference took place today here between leading banking interests and representatives of Southern cotton planters regarding the formation of a large pool to finance the cotton crop and thereby ease the foreign exchange situation. Some of the largest banks of this city have expressed their willingness to help in the organization of a fund amounting to \$150,000,000 with which to assist planters and other cotton dealers, whose interests have suffered severely as a result of the European war.

It is not the purpose of the local bankers to lend money on cotton or warehouse receipts for an indefinite period, but rather to make advances at about 6 per cent until such time as the staple can be shipped in larger quantities to Liverpool and other cotton centers.

St. Louis and New Orleans banks will play a prominent part in the proposed pool and the leading financial institutions of the Middle West, which are growing stronger in cash by reason of the inauguration of the grain movement, also will be asked to assist.

## RAISING OF \$150,000,000 FUND TO FINANCE COTTON CROP IS ASSURED

New York Bankers Agree to Furnish \$50,000,000 If Rest of the Country Will Supply \$100,000,000.

New York, Oct. 14.—The raising of a \$150,000,000 fund by bankers and representatives of Southern cotton planters to finance the country's cotton crop is assured, it was announced today, and the Federal Reserve Board at Washington will be called upon to manage the fund and direct the loaning of it.

New York bankers, at a conference with cotton planters' representatives here during the day, agreed, it is stated, to furnish \$50,000,000 if the rest of the country would supply \$100,000,000 or more under conditions agreed to at the conference.

Postus J. Wade, president of the Mercantile National Bank of St. Louis, and a number of the St. Louis Clearing House Association, issued a statement late tonight announcing the plan. Mr. Wade said that the task put upon the Federal Reserve Board, while onerous was readily accepted by Secretary McAdoo, who recognized the gravity of the situation.

Mr. Wade attended the conference left at midnight for Washington with the expectation, it is understood, of discussing the plan with the members of the Federal Reserve Board tomorrow. Several prominent St. Louis business men who came to New York with Mr. Wade accompanied him to Washington.

Mr. Wade's statement set forth that a definite conclusion was reached today between the St. Louis committee and New York bankers.

"By the action of the New York bankers," the statement says, "it may be assumed safely that the fund undoubtedly will be raised within the next few days. The difficulty encountered was to determine how much the syndicate could be managed and money loaned at reasonable expense to the borrower and after many conferences and telegraphic communications between Washington and New York, it was finally concluded to turn over the entire fund to the Federal Reserve Board at Washington who would act as manager of same and direct the loaning of the fund. The outline of the plan as agreed upon is as follows:

"1. Organize \$150,000,000 cotton loan fund through the United States, which fund shall be turned over to and managed by the Federal Reserve Board at Washington and loaned to the national currency association or to the Federal Reserve Board Banks.

"2. All loans to be made payable on or before one year at the option of the borrower, with the right to the Federal Reserve Board to extend any or all such loans made for two periods of six months each, interest on such loans to be at rate of 6 per cent per annum.

## A Loss

For Anderson and Some Gain for Spartanburg by Reason of Change of Industry.

Explaining that they could not complain one bit of the business they had done while they were located in Anderson, but believing that they could secure more patronage in another section of the State, the proprietors of the Anderson-Havana Cigar Company determined several weeks ago to change their base of operations and accordingly decided to move their factory to Spartanburg. Moving was underway yesterday and by the end of the week the Spartanburg factory will be furnishing cigars to the trade.

The cigar factory came to Anderson about six months ago and for a while did a splendid business but one of the men interested in the venture became ill and finally there was a dissolution of the concern. It is probable that this account for the relocation of the concern from Anderson.

**Notice to Patrons.**  
 The patrons of Denver and Smith schools are requested to meet at their respective school houses on Monday, October 19, as sessions will open on that date.

 Secretary of Trustees.

## CATTLE SHOW AT PIEDMONT FAIR

Finest Cattle in the State Will Be Shown During Meeting.

You will wonder why people in this section have ever talked about the war and hard times when you visit the cattle department of the Piedmont Fair.

The secretary states that he already has the assurance that there will be some of the finest cattle in South Carolina shown at the fair. The Piedmont section has already determined that this shall no longer be thought of as a one crop country. With this in mind the farmers are turning some of their cultivatable lands to pasture, seeding these lands to grasses and clover and raising as fine cattle as any country can boast of. There are already a number of fine registered herds of Red Poll, that beautiful dual purpose cow, of Aberdeen Angus, the black, but-headed beef cow, of the Hereford, the white faced deer cow, of the Jersey, Ayrshire and other pure bred cattle. Enough owners of cattle have been heard from to assure a fine cattle show and competition in all the classes will be kept.

J. A. Major, of Belton, was among the visitors to the city yesterday.

## EFFORTS TO PROCURE RELIEF FOR COTTON GROWERS AROUSE DOUBT AS TO ADJOURNMENT OF CONGRESS

HOUSE LEADER UNDERWOOD THINKS ISSUE HAS MADE ADJOURNMENT PRACTICALLY IMPOSSIBLE BY SATURDAY NIGHT

Washington, Oct. 14.—Efforts by Southern members of Congress to procure legislative relief for the cotton States arouse doubt today as to the time of adjournment. Democratic leaders would make no predictions.

Representative Underwood, the House leader, said this issue practically had made impossible adjournment by next Saturday night.

**Hard Issue Amendment.**  
 Senator Simmons, in charge of the war tax measure, insisted a vote would be reached by Saturday night. An amendment will be proposed tomorrow by Southern Senators to provide for a \$250,000,000 government bond issue, purchase of 5,000,000 bales of cotton, or one-third of the season's crop. No one would venture a prediction upon the fate of the amendment. Should it be defeated, Southern House members may delay final action on the measure pending another effort to secure relief.

**Tax Bill Amendments Approved.**  
 Considerable progress was made on the bill in the Senate which agreed without a roll call to the proposed increased tax of 75 cents a barrel on beer, taxes of five cents a gallon on rectified whiskeys, one dollar a thousand on bank capital and surplus, and the amendment eliminating taxes on gasoline and life insurance. Some of the proposed stamp taxes also were approved, sections relating to proprietary medicines, express and freight, tobacco manufacturers and dealers and wine being passed over for further consideration. Action on some of the administrative features also was deferred. Senator Simmons giving notice that he would ask for a

## GERMANS BUILDING BIGGEST GUNS EVER CONCEIVED IN KRUPP PLANT

New York, Oct. 12.—Adolph F. Gall, an engineer in the Edison Laboratories here, who arrived today on the Hellgölay, said Germany was building a number of guns which would make the 16-inch guns used against Liege, Namur and Antwerp look like bean blowers.

The guns, according to Mr. Gall, will have a calibre of 16.5 and 21.5 inches and are being rushed to completion at the Krupp plant in Essen.

"The new guns will shoot from 21 to 25 miles," he said. "The Germans plan to supplant the present batteries of 16-inch guns with these and then mount the old guns on the battleships."

"Then if the German army has captured Ostend and some other points along the channel, the new big guns will be ranged there to hold out the British navy and troop ships. In this way the Germans feel they can control a considerable portion of the English Channel of Gauls and Ostend. One shot from either of these guns would demolish a dreadnought."

"It is impossible to say how many Zeppelins there are. Many have done excellent service. I know they run in

night session tomorrow.

**Starts Heated Argument.**  
 Senator Martin, chairman of the appropriations committee, replying to the charges of extravagance which have characterized every Republican speech in opposition to the tax bill, started a heated argument when he asserted the large appropriations were due to "making right the wrongs committed by the Republican party. He cited the proposed \$25,000,000 indemnity to Columbia.

**Senator Duffell declared** it \$25,000,000 was paid it would be paid to "a lot of blackmailers."

Senator Thomas suggested that in all probability after the European war "if any indemnity is demanded by Belgium or Germany it will be denounced by the German Reichstag as blackmail."

"The Senator from Colorado," rejoined Senator Bristow hotly, "would imply by that remark that the government of the United States had treated Columbia as Germany has treated Belgium. There could be no greater slander pronounced against the government of the United States and nothing more unjust, and in my opinion it borders on treason."

Senator Martin said Democratic appropriations for 1915 exceeded those for 1913, the last year of the Republican administration, by \$96,496,066, but he classified as "extraordinary expenditures" \$102,000,000 of the Democratic appropriations which he claimed were incident to the Mexican crisis and the war in Europe. Appropriations for routine governmental expenditures, he said, were in reality some \$6,500,000 less than the last Republican appropriations.

## DIPHTHERIA SCARE AT WALHALLA

Several New Cases Reported. Other News Notes From Neighboring City.

Walhalla, Oct. 14.—The diptheria situation here continues about the same as for the past two weeks, there being occasional cases reported. Little Miss Claire Sloan, daughter of Dr. and Mrs. B. F. Sloan, who was a recent sufferer, is now entirely well and the quarantine has been raised on his home. Little Carolyn Rogers was taken suddenly ill Sunday night, and it was found that diptheria had developed quickly in his case. The home was quarantined immediately. The little girl is getting along nicely, practically all traces of the disease disappearing after 36 hours, during which time diptheria antitoxin was administered. The home of Mr. and Mrs. G. D. Abbott has also been quarantined, their son being sick of diptheria. The situation has not been deemed of such serious nature at present to close the public schools.

Protracted services were begun in the Walhalla Baptist church last Sunday and they are being largely attended, especially at the night services. Music is being furnished by a selected choir, which has been under the training of Chas. F. Hetrick for some time. Rev. T. L. Smith, the pastor, is being assisted by Rev. H. A. Fallow, of the New Westminster Baptist church, who is doing all the preaching for the series of meetings. He is giving his audiences strong and practical sermons at every service and much interest is being manifested from the beginning. The morning services begin at 10 o'clock and close promptly at 11 o'clock, while the night services begin promptly at 7:30. The public is earnestly urged to attend, and the members of all denominations are invited to take part in the services.

Mrs. J. C. Keys, of Charlotte, N. C., is spending some days of this week in Walhalla visiting at the home of her sister, Mrs. S. K. Sandy. Her many friends here will be interested in the information that she will hereafter be closer to her old home, as she will reside at Clemson College for the present with her son, S. Clare

Keys, who has been elected to a position as book-keeper at the college. He has been holding this position since last May.

Married, at the residence of the officiating minister, Rev. J. A. Bond, near West Union, on Sunday afternoon last at 4 o'clock, Miss Dora Lee, of the Pleasant Ridge section, and Marvin Brown, of near Westminster. The bride is a daughter of Mrs. Reuben Lee, while the groom is a son of Mr. and Mrs. J. D. Browning. The young couple have the best wishes of numerous friends.

Rev. G. M. Wilcox is spending this week in Sumter, where he is in attendance upon an important Presbyterian meeting. His family are visiting relatives at Richland during his absence. Wade C. Hughes, Esq., who is engaged professionally at Pickens this week, expects to join Rev. Mr. Wilcox in Sumter if possible, going as a delegate from the Walhalla Presbyterian church.

Miss Minnie Burton, who has been spending some time in Atlanta, where she has just completed a course at one of the business colleges of that city, returned to Walhalla last week and is with her mother, Mrs. C. A. Burton. She has numerous friends here who are pleased to welcome her back.

## FOR SALE

FOR SALE—200 to 300 gallons molasses for stock feeding at twelve cents per gallon. W. A. Power.

FOR SALE—I can furnish you select Apple Oats and allow you to pay for same with cotton at 8c per pound. This offer for immediate acceptance only. J. J. Fretwell.

WANTED—To rent a small store-room in Anderson, Belton or McCormick; also a small farm for trucking. M. Griffin, Pavo, Ga.

You can get the news while it's new in The Morning Daily Intelligencer.
